Create new List “to do”

The screenshot shows the Postman interface for a POST request to the Trello API endpoint `https://api.trello.com/1/lists?name=to do&idBoard=64d3de4131fd1af62ee4bfec&key={{mykey}}&token={{token}}&pattern="[0-9a-f...]`. The request is successful, returning a 200 OK status. The response body, displayed in JSON format, contains the following data:

```
{
  "id": "64d4eeb240665e574b7d6cbf",
  "name": "to do",
  "closed": false,
  "idBoard": "64d3de4131fd1af62ee4bfec",
  "pos": 2,
  "status": null,
  "limits": {}
}
```

The interface also shows test scripts and a sidebar with a "Script with Postbot" advertisement.

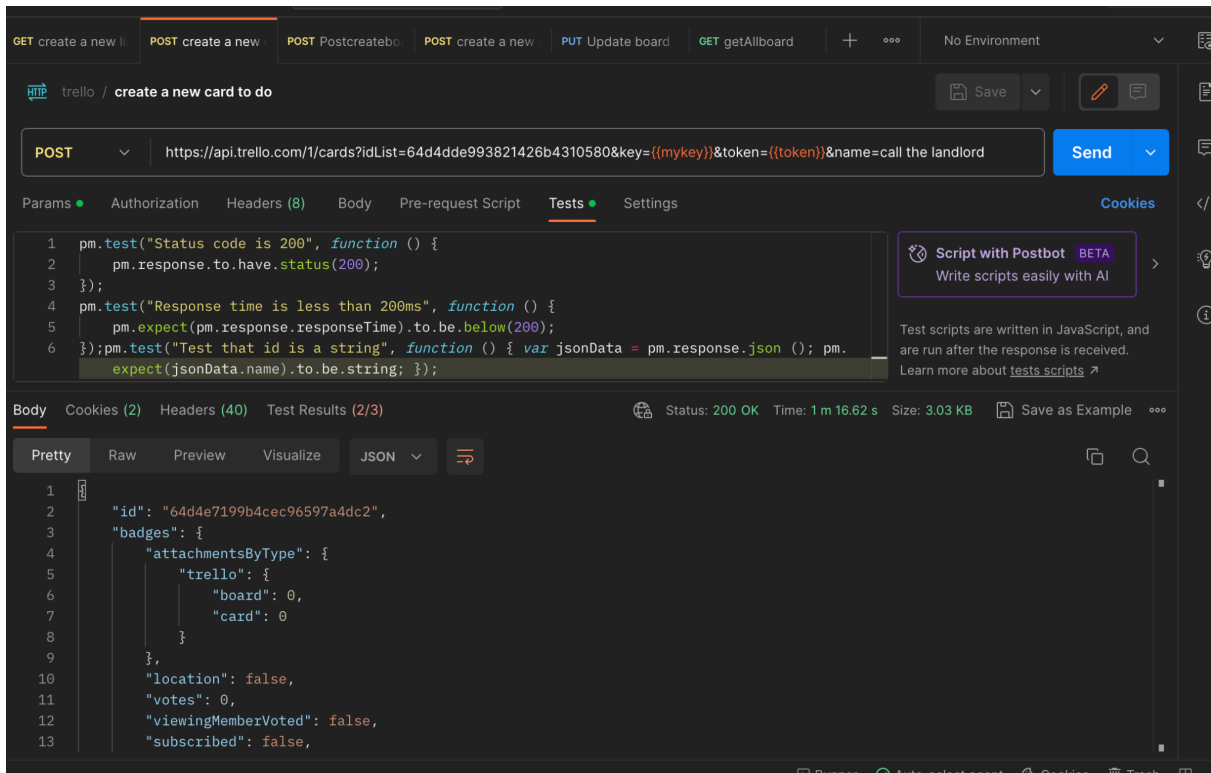

Create new List “done”

The screenshot shows the Postman interface for a POST request to the Trello API endpoint `https://api.trello.com/1/lists?name=done&idBoard=64d3de4131fd1af62ee4bfec&key={{mykey}}&token={{token}}&pattern="[0-9a-f...]`. The request is successful, returning a 200 OK status. The response body, displayed in JSON format, contains the following data:

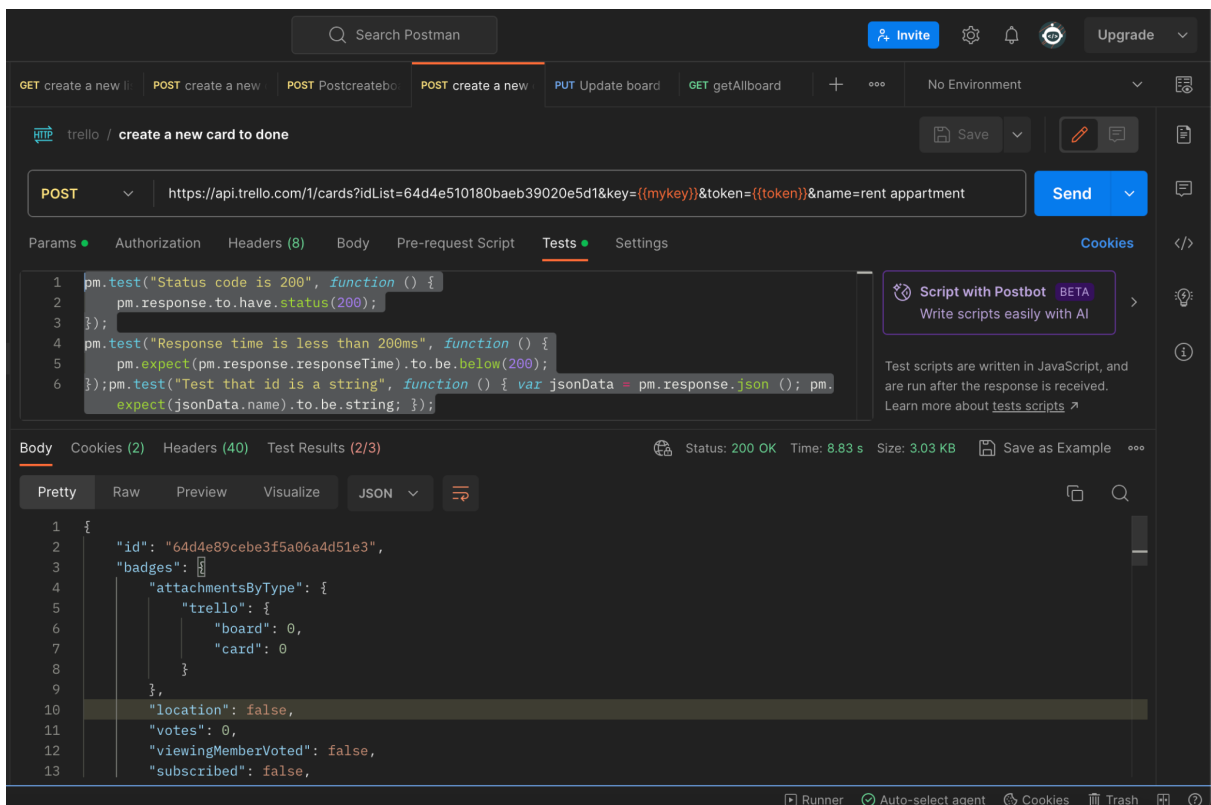

```
{
  "id": "64d4e743ce631bb08ab0eae0",
  "name": "done",
  "closed": false,
  "idBoard": "64d3de4131fd1af62ee4bfec",
  "pos": 33792,
  "status": null,
  "limits": {}
}
```

The interface also shows test scripts and a sidebar with a "Script with Postbot" advertisement.
